

PRICES REDUCED

It seems impossible, but that is what FAIR BROS. & CO. have done.

THEY HAVE REDUCED PRICES ON DRY GOODS, MILLINERY, CLOTHING, Boots and Shoes.

Their assortment was so large that in order to close out their present stock and make shelf-room for new goods that soon must come, they have slashed the original figures, regardless of profit.

DEATH UNDER A TRAIN AT THE CROSSING AT MCKENRY, KENTUCKY.

Rightful Tragedy in which Four Persons were Killed Outright and Another very Badly Wounded.

NONE TO TELL THE STORY

The most horrible catastrophe that has befallen this county in its history occurred at a railroad crossing just below McKenry at 12:30 o'clock Saturday. While attempting to cross the railroad at the point known as Proportion crossing, just west of McKenry, on the O. & S. W. railroad, a wagon in which were J. B. Maddox, Miss Sallie Pay, aged 26, Dot Pay, aged 11, Ollie Smith, aged 5, and Sales Smith, aged 3, was struck by the east-bound passenger train and the four persons were killed outright and the fifth, Sales Smith, was so badly mangled that he died at 10 o'clock Sunday night, after two days' terrible suffering. Little Sales Smith has an arm broken and his back was mangled and bruised that it is feared he cannot recover.

The three victims who were killed outright were taken to Russellville, where they were buried Sunday. The remains of Mr. Maddox were interred at West Providence Monday. Just how the accident occurred will probably never be known, as the only occupant of the wagon old enough to tell the story is dead. The scene was witnessed by several people who were too far away to know just what occurred. The crossing at the point of the accident is a dangerous one, as there is a sharp curve in the railroad and a hill on the dirt road just before the point of intersection.

The wagon was seen to stop when near the top of the hill and then to move forward rapidly, as if to avoid danger at the crossing. The location of the road is such that it is not possible to see the railroad until within a few feet of the crossing. The team moved rapidly up to the crossing, and under the whip of the driver hanged across the road just in front of the train. When the wagon wheels struck the rails the team leaped, leaving the wagon stranded just in front of the train. In another moment the powerful engine had plowed its way through the vehicle, shattering it into splinters and scattering its contents in all directions. The driver was killed outright and the other three persons were killed outright. The scene was witnessed by several people who were too far away to know just what occurred.

James Coleman, a colored youth of the neighborhood, who was standing near the crossing, saw the accident and saw all the tender hands and medical aid could do for them was done. Dr. Smith, the local surgeon of the railroad, and the other physicians of the neighborhood, attended the unfortunate sufferers, but found Mr. Maddox was beyond the hope of recovery. It is thought the little Smith child was in agony until death relieved him.

The scene was soon surrounded by a crowd of the dead and injured, and all that tender hands and medical aid could do for them was done. Dr. Smith, the local surgeon of the railroad, and the other physicians of the neighborhood, attended the unfortunate sufferers, but found Mr. Maddox was beyond the hope of recovery. It is thought the little Smith child was in agony until death relieved him.

The Mince Pay lived in Russellville and were the daughters of the late Rev. John Pay and were brilliant and popular girls. The Smith children also lived in Russellville and were children of Mr. A. B. Smith, of that city, and their mother was a sister to the Pay girls. Mr. Maddox was 34 years old and his wife was a sister to the Mince Pay, who the Smith children had been paying a visit to the home of Mr. Maddox. Mr. Maddox was a son of Mr. Asaiah Maddox, and was one of Ohio State's best students, best young man.

It is probable no blame can be attached to the men in charge of the train, but it is a warning of the approach was given as it came upon the crossing. The track at the point of the accident is a sharp curve, and the planks to aid the wheels of vehicles to make the crossing and this no doubt caused the team to stop and led to the accident.

The profound sympathy of the whole country goes out to the bereaved families who thus suffered the irreparable loss of their loved ones.
